Regcure Pro Smashes Registry Reviver Hands Down Registry Reviver is another one of those registry software products that claim to speed up your computer, fix error and stop crashes, however can it really do what the manufacturers claim? One thing I know about registry software products is that they do give you the software for free so that you can see whether or not the product will find and or fix problems on your computer.. Which is why once you purchase the software you can and should run the software on an on-going basis to ensure your system is optimized.
